EXPERIENCE

AUGUST 2023 – APRIL 2024

JUNIOR VICE HOUSE CAPTAIN, HOLY CROSS HIGH SCHOOL

During my tenure as the junior vice house captain for St Gabriel house in my school, I gained a deep understanding of how to work with people and was involved with several minor decision-making projects, which provided me with roles of responsibility.

AUGUST 2024 – APRIL 2025

SENIOR PREFECT, HOLY CROSS HIGH SCHOOL

After my previous post as a junior member of the leadership team of St Gabriel House, I returned renewed with a fervour to continue to serve and do good. As a result, I joined the senior leadership team and managed to get involved with various major House activities. More roles and responsibilities have helped shape and mould my character to be a reliable individual.

AUGUST 2025 –

CO-HOUSE CAPTAIN, HOLY CROSS HIGH SCHOOL

As of the present, I have become a Co-House Captain of the new Blessed Carlo House. I aim to ensure that I transform the school for the better, to leave it a better place than it was when I joined. I believe that I must shoulder the tremendous responsibility of my new role to make good on my promises. My determination and courage shall help me achieve these goals and guide my peers and me to a brighter future.

HIGHER ENGLISH, CREDITED BY SQA
Grade: A

SKILLS

- I have strong communication skills
- I have a deep sense of responsibility and discipline
- I am a polyglot
- I possess great empathy, which helps me build a strong rapport with people
- I am curious and willing to learn new things everyday
- I have a can-do attitude

ACTIVITIES

Although I may not have much experience with formal employment, I am no stranger to responsibility. I have been involved with sports clubs, like my school's badminton club. Additionally, I

have been actively taking on roles of responsibility to serve my community as much as possible. I am also an avid learner and have taught myself several topics in mathematics and computer science. My other hobbies are listening to music, philosophising and teaching myself academic topics that fascinate me. (This is one of the main reasons why I finished Advanced Higher Maths a year early.)
